

Dear Student,

Whether you are currently enrolled in a math class or just looking for extra review, you've found the right resource! **MATH NATION** is an online resource, available 24/7, meant to help students across Florida review all the skills needed to succeed in math courses like Pre-Algebra, Algebra 1, Geometry, and Algebra 2.

### **MATH NATION: The Who, What, When, Where, and How?**

#### **-- Who is involved? Who is this for?**

The University of Florida, in partnership with Study Edge, an innovative education technology company, created this free resource to help public school students across Florida succeed in math.

#### **-- What is Math Nation?**

**MATH NATION** is an easy-to-use online resource, featuring energetic Study Experts and dynamic teachers throughout Florida. These fun, interactive videos will help you review the material you learned in the classroom on your own time. Videos come with study guides so you can follow along with the videos easily. There is also a "Test Yourself!" Practice Tool for each topic, so you can check if you understood the material. The "Test Yourself!" tool will help you get comfortable with computer-based testing and the different types of questions that you will see on the End-of-Course exam. (End-of-Course exams are required for Algebra 1 and Geometry only).

**MATH NATION** also features Math Walls where students can go for extra help. There, you can ask and answer questions anytime about various concepts. Study Experts and Florida teachers are online to help guide you to the correct answers. You can receive Karma Points for answering other students' questions on the Wall, because we believe that by helping others you'll help yourself learn the material more thoroughly! These Karma Points can also earn you real prizes. Recently, students have won t-shirts, pizza parties, and iPads for helping others on the Wall!

#### **When can I use MATH NATION?**

You can use **MATH NATION** anytime that works best for you! When it's hard to remember what happened in 8 AM class after you're done with your part-time job, extracurricular activities, and other responsibilities, hop onto **MATH NATION** and

watch a few videos to jog your memory! When you have a question about how to solve a problem, use your smartphone and post it right to the Wall! Not sure how to study for an upcoming test? Try the “Test Yourself!” Practice tool; it will help you identify skills you should study and then guide you to the videos to watch to review them!

-- **Where can I find MATH NATION and its resources?**

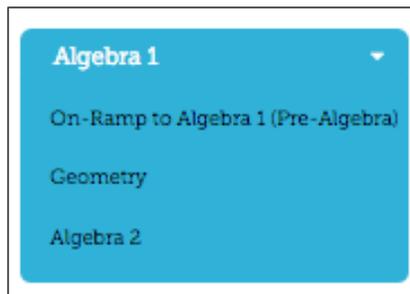

**MATH NATION** is available from any computer, smartphone, or tablet with access to the Internet. It's easy to find **MATH NATION**! Visit [MathNation.com](http://MathNation.com) or download the iPhone/iPad and Android apps by searching for '**MATH NATION**' in your phone's app store.

-- **How do I get started?**

Go to [MathNation.com](http://MathNation.com) and click “Enter.” Enter the name of your school. The next screen will prompt you to enter your district username and password.

If it's your first time logging in, you will be asked to select your subject. Choose the subject that best fits your needs. Don't worry – you can always switch subjects later.

To toggle between subjects once you're logged in, just look in the upper left hand corner, (underneath the **MATH NATION** flag), for this menu, (at right).

Remember, you can also access videos, study guides and the Wall on our free smartphone apps. Download the iPhone and Android apps by searching for '**MATH NATION**' in your smartphone's app store.
